Up to 40 Konica1024 Heads

Up to 6 rows heads with grayscale technology, deliver high quality image. The addition of light cyan and light magenta inks results in smooth color gradations and vibrant colors.

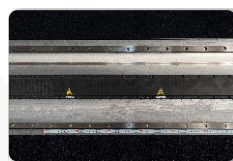

Rubber Roller Handle System

4 rubber rollers installed in the front and rear of the printer, ensure precise and wrinkle-free feeding at high speeds; equipped with both an air shaft and dual holding rollers.

Unique Ink Supply System

GZ self-developed negative pressure ink system ensures stable, high-speed printing and prevents clogging. The one-button positive purging system offers effortless maintenance.

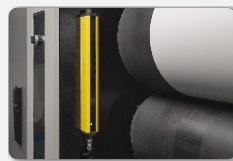

High Standard Movement System

A magnetic linear motor and metal encode system enable high-speed, low noise, and durable printing. A mesh kit is tailored for banner printing.

Multi-Layer Applications

2 layers: W+C/ C+W;
3 layers: C+W+C;
4 layers: C+K+W+C - Day&Night;
5 layers: C+W+K+W+C

Operation Safety Kit

Built-in light curtains can detect foreign object automatically to ensure operator safety; after the foreign object is removed, the interrupted printing job can be continued.
