Epson T3200 U3-S Print Heads

Equipped with Epson innovative T3200 U3-S head, with 3200 nozzles, built-in heater for unparalleled color performance and smooth ink flow.

GnTek Negative Recirculation

GZ dual negative pressure recirculation system with pressure balancing unit and pressure protection unit assures steady ink delivery and minimum maintenance.

Suction Nozzle for Head Cleaning

Featuring a narrow slit, suction nozzle with a vacuum fan moves back and forth beneath the print heads to effectively remove all residual ink.

Optimized Media Handling System

The feeding system with strong media holders is suitable for both light and heavy media. Taking up system with air shaft & tension bar enables precise and steady rewinding.
